Dear Joel,

Here at the Marysville School District we are dedicated to providing a safe environment for our students, faculty and staff. By securing many of our schools with Sonitrol Pacific we have been able to save money from break-ins and additional maintenance costs.

We have used Sonitrol Pacific as a security vendor for over 15 years. Our experience with your company is that Sonitrol is willing to work with us to reduce false alarms.

I would highly recommend Sonitrol Pacific to anyone looking for a high level of security at a reasonable cost.

Sincerely,

Keith Stefanson  
Maintenance Supervisor
