**Subject:** Testimonial - Sonitrol

Being a place where a variety of people are in and out all the time, Sonitrol Pacific has provided the security and monitoring that we have needed. They are at the top of their game. In times when there are inadvertent intrusions, they have assessed the threat and contacted us with great information. When there has been a breach of security, Sonitrol Pacific has been right on top of it and has alerted authorities right away. I am thankful that I have Sonitrol as they give me great security.

Thanks,

*John Sanguinet*
