Gold Masters Precious Metals has been a customer and a fan of the Sonitrol Pacific team for over 30 years!

We've stuck with Sonitrol as our #1 vendor of choice through 2 different locations for our business, 3 or 4 different system upgrades, 4 or 5 vandalism/break-in attempts and 6 different U.S Presidents. We believe in Sonitrol Pacific and the total customer experience from the installs and upgrades to all the services their various departments provide.

When ever we have a security question, concern or problem, Sonitrol Pacific has the answer and the solution.

When we need service, no matter what time of day or night, Sonitrol Pacific responds immediately.

When an intruder attempts to break into our business, Sonitrol Pacific hears the thieves outside, BEFORE they get in and sends the police quick.

If you want to hear from me personally, please give me a call anytime. I will absolutely tell anyone with the need to feel safe to invest in Sonitrol Pacific.

*David O. Berryman*
